1617-01 RFI EMPLOYEE HEALTH BENEFIT STUDY

The following questions were asked:

1. Can you provide a census for retirees?

Answer: The census that was provided includes retirees. They are labeled as "RE1"

2. Are retirees included in the claims experience provided?

Answer: Yes

3. The last month of claims experience received was for 969 employees. 992 are listed on the census. What is the reason for the difference in employees?

Answer: That is a difference of 23 people. We have about 6 individuals listed on the form that are considered RE4. These are retirees that have elected the medicare supplement after 65 and remained on our dental coverage, but not medical coverage. As to the remaining 17, our census changes monthly based on eligibility, retirements and terminations.
