Addendum No 1

September 9, 2020

City of Longview Bid # 2021-02 Plumbing Services

The specifications and contract documents are modified as described below. This addendum becomes a part of the contract documents. All provisions of the original specifications and contract documents shall remain in full force and effect, except as modified by this addendum.

City of Longview received the following questions:

1. We have a large Hydro Jetter (trailer mounted) for clearing lines and a plumbing video camera that we frequently use to find problems in lines. Can these items be charged or not? (I understand they must be approved first) If they can be charged, do we need to quote rates in our bid somewhere?

Answer: Sink machines and drain snakes are considered common equipment and, therefore, City of Longview will not allow additional charges for usage of this equipment. Jetter for clearing lines, sewer machines and plumbing video camera are not considered common tools. If they are needed City of Longview will get estimates at that time. Therefore, it is not necessary to include this information with bid submission. All equipment charges must be reasonable and pre-approved by City Representative prior to use.

If you have any further questions, please contact the Purchasing Department.
